◆ MSC & GLOBAL MBA DOUBLE-DEGREE

The two-year double-degree MSc & Global MBA programme is offered to a select group of motivated students to complement their intensive Master of Science coursework with a rigorous Global MBA programme. Earning both a Master degree and an MBA degree, in a total of two years, this unique programme prepares students for senior management positions in areas that demand expertise in a specific business discipline.

Our MSc programmes are designed to prepare you to master the specific demands of a precise business field while the MBA degree will enable you to develop a 360° global business vision, strengthen and evolve your leadership capabilities and build a highly diverse, experienced and international network. Combined, the two degrees complete your leadership profile granting you the technical, operational, and problem-solving skill while building your leadership potential for top management positions.
